

Dear Sir,

Please DO NOT replace the current FM translator service for the LPFM service. I understand that this change will cause many in our blessed country to go back to listening to other choice radio stations that are not so positive. A friend told me about K-Love a year ago and since then, our family, friends and employee's listen to this positive radio station that strives toward love, honor and integrity. Before we told our employees about K-Love we received a call from a local driver who told us that he was offended by the music coming from our business truck radio. Please do not encourage our workers to go back to listening to any thing else but positive music. We want to be a part of a better America. One person at a time. Respectfully Submitted, Maggie Jimenez
